OUR CORE MARKETING SERVICES

MARKETING SOLUTIONS FOR EVERY INDUSTRIAL SECTOR

MANUFACTURING AND TRANSPORT

Quality products and services got you this far, but now your clients demand more. They're online information gathering and researching for substitute offerings and alternate solutions. They're using social media channels such as LinkedIn to connect with different industry buyers, suppliers, leaders and influencers. They're looking online for marketing content that can help solve their key challenges. The rules have changed but the industrial marketing game remains the same – increase share of wallet by proving you're the market leader and reputable source.

CONSTRUCTION AND FABRICATION

You need to provide your clients with the technical information they need, when they need it, and where they go to look for it: search engines, industrial directories, social media, and email. That means improving your web presence, social game and creating content that demonstrates your capability. Industrial Ideas will help you transform from a commodity player to a customer driven brand. This will re-position your company to increase profitable market share.

MINING AND ENERGY

Certification and Reputation are the tickets to the game. Building customer trust is the key to success in the Mining and Energy industries. That means improving your communications, such as your capability statements, quality assurance documentation, project case studies, technical product library, to deliver content that demonstrates your value proposition built on assurance and credibility. Industrial Ideas will help you increase awareness to engage with your key clients and prospects serving the Mining and Energy industries in Australia.
